Education

JSPM's Rajarshi Shahu College of Engineering (RSCOE) — Pune, India
*B.Tech in Information Technology, Third Year | CGPA: **9.44*** — *2024 – 2028*

Technical Skills

Languages: Python, C, C++, JavaScript, HTML, CSS, SQL

Frameworks & Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn, SciPy, TensorFlow, Django, Node.js

Cloud Platforms: Amazon Web Services (AWS), Google Cloud Platform (GCP)

AWS Services: EC2, S3, Lambda, IAM, VPC, API Gateway, DynamoDB, RDS, Amplify, CodePipeline, CloudFront, CloudWatch, Route 53, SNS, ELB, Bedrock

GCP Services: Compute Engine, Cloud Run, Cloud Functions, Cloud SQL, Cloud Storage, Cloud Load Balancing, VPC

Tech Stack: Cloud Computing, Networking, OS, DSA, Object Oriented Programming, Workflow Automation, Linux Administration, CI/CD Engineering, Infrastructure as Code, Containerization

Tools: Docker, n8n, Postman, GitHub/GitLab, RESTful APIs

Projects

Cloud Fun Facts Generator | *Lambda, API Gateway, DynamoDB, Amazon Bedrock, Amplify* | GitHub

- Built a full-stack serverless app that fetches cloud facts from DynamoDB and uses **Amazon Bedrock (Claude 3 Sonnet)** to rephrase them in a witty style via a responsive web frontend
- Designed end-to-end serverless architecture with zero server management and deployed frontend on AWS Amplify with HTTPS and global CDN
- Total project cost: **$0.03** - entirely within AWS Free Tier except Bedrock inference calls

AWS Memory Management Game | *S3, CodePipeline, CodeStar Connections, IAM* | GitHub

- Developed a browser-based card-matching game with 12 AWS service icon pairs , featuring a 90-second countdown timer, live scoring system, and 2-player competitive mode
- Implemented **CI/CD pipeline** using AWS CodePipeline connected to GitHub - code pushes auto-deploy to S3 within 60 seconds with zero manual uploads
- Hosted entirely on S3 static website hosting at **$0.00 cost**

Certifications

AWS Certified Cloud Practitioner - Amazon Web Services

Experience

AWS Student Developer Group — 2026 – Present
Core Team Member — *Pune, India*

- Led and organized cloud events, Summits, and Bootcamps reaching **300+** student participants
- Mentored **50+** beginners in AWS fundamentals and cloud certification preparation

Google Developer Groups on Campus (GDGC) — 2025 – Present
Cloud Coordinator — *Pune, India*

- Coordinated and executed cloud workshops , hackathons and learning sessions including Google Skill Boost 2025 and HackNova Hackathon 2026
- Guided students in cloud fundamentals, GCP deployment practices, and hands-on labs
